Bachelor of Science in Information Technology

Nueva Ecija University of Science
and Technology
2023-2027

ACHIEVEMENTS

Dean's List — 2023–2024
Dean's List — 2025

PROFESSIONAL SUMMARY

Information Technology student and Web Developer with hands-on experience building, optimizing, and deploying full-stack web applications. Proficient in PHP, JavaScript, Tailwind CSS, and MySQL, with practical knowledge of DigitalOcean and cloud deployment infrastructure. Seeking an entry-level Web Developer position to contribute technical skills and deliver reliable community and client web systems.

INTERNSHIP EXPERIENCE

Work Immersion

Business Permits and Licensing Office 2020 – 2023

- Assisted in encoding and organizing 500+ business permit records into digital databases.
- Supported daily data management, record-keeping, and office administrative operations.
- Maintained accurate data logs to improve file retrieval efficiency for office personnel.

ACADEMIC & TECHNICAL PROJECTS

SumEste Portal

- Designed and developed a full-stack barangay management and analytics platform for Barangay Sumacab Este.
- Implemented core modules: resident records management, document request processing, beneficiary prioritization, and equipment tracking.
- Integrated an analytics dashboard and business listings, successfully deploying the system live into production.

Aurora

- Built a web-based resort booking platform featuring room reservations, interactive calendar scheduling, and an admin panel.
- Developed responsive user interfaces and backend database queries to streamline booking management.
